Client

Farmers Insurance Group of Companies established in 1928, is the US's third-largest insurer of both private Personal Lines passenger automobile and homeowners insurance, and also provides a wide range of other insurance and financial services products.

Business Needs

The application is meant for filing a claim for accident/mishappening with insurance company.
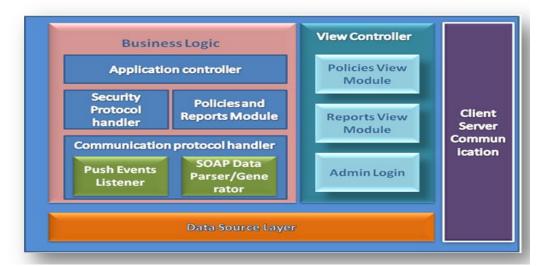

RapidSoft's Role
Design and develop the mobile solution on to the iPhone platform.

Solution Overview

An application that makes filing insurance claim for farmers hassle free, easy and instant.

Highlights:

- Stay up-to-date on the latest information for the area. Subscribe to weather alerts and major catastrophe information (including pandemic alerts) Alerts are based on the ZIP code you enter and made available in real time.
- Find farmers preferred vendors and services, including auto repair facilities, and car rental services.
- Collect and store accident photos, driver information and vehicle information, and then e-mail them to your agent or a claims representative.
- Homeowners can photograph property damage, and then e-mail the photos to their agent or claim representative. There's even a home inventory function that allows the user to document the home and valuables.
